General Information about Stock Items

Contained within this document are details of items of product that are currently held within stock.
 Some items are miss-fabrications, some have been fitted and removed and some have been used on exhibitions and in showrooms.
 There may be some marks on the sets being sold, and discounts have already been applied for this reason.
 Detailed condition reports are available for each listed item and can be requested from a member of our team.
 Following inspection, each item is fully wrapped and stored ready for purchase.
 Specifications can differ compared to what is currently deemed standard with a newly fabricated set.
 Openings and configurations are viewed externally.

Purchase of Stock Items

To purchase an item from this list please contact one of our team members with the reference for the set you are interested in.
 They will provide you with the full condition report for the item and a contract for its purchase.
 Prices are for the item as detailed in this list and on its condition report, discounts have already been applied.
 The price includes for delivery up to 150miles from our Norfolk Head Office, installation is not included.
 Lead times are 1 to 2 weeks for the item as detailed, unless an alternative lead time is stated in the additional information.
 Lead times for items as detailed will start from the point that we receive a signed contract and full payment.
 The lead times will change if the supply requirements are changed, or if other items are purchased in conjunction with it.
 If required, we can supply glass to you own specification for items that do not include it, the lead time will be dependent on the glass type required.
 For purchases that include additional items our standard Terms and Conditions and payment terms will be applied.
